

Company Environmental Policy Statement

Introduction:

We Yingkou Zhongjie Shida Separator Co., Ltd., recognize the inseparable link between sustainable business growth and environmental stewardship, viewing it as a cornerstone of our social responsibility. Committed to leading the industry in green practices, we implement comprehensive environmental management strategies aimed at minimizing our ecological footprint, fostering resource circularity, and driving eco-innovation. This policy outlines our unwavering commitments, ambitious goals, and actionable guidelines for protecting the environment, guiding every aspect of our operations.

I. Environmental Commitments

- 1. Regulatory Compliance:** We adhere strictly to all relevant national, local, and international environmental laws, regulations, and standards, ensuring the legality and sustainability of our operations.
- 2. Prevention-Oriented Approach:** We prioritize prevention, assessing and mitigating potential environmental risks in all our activities, fostering a culture of proactive environmental protection.
- 3. Continuous Improvement Cycle:** We pursue relentless improvement in our environmental performance, setting ambitious yet achievable targets, monitoring progress, and refining our management systems.
- 4. Employee Engagement:** We empower our workforce to be active participants in environmental protection, fostering a culture of environmental responsibility through education and awareness programs.

II. Environmental Goals

- 1. Energy Efficiency & Emissions Reduction:** We strive for energy-efficient operations, reducing our carbon footprint and greenhouse gas emissions to industry-leading levels.
- 2. Circular Economy:** We promote circular resource use, minimizing waste generation, maximizing recycling, and fostering a closed-loop economy.
- 3. Green Supply Chain:** We prioritize eco-friendly materials and suppliers, fostering a sustainable supply chain that supports our green initiatives.
- 4. Ecosystem Protection:** We protect and restore the natural ecosystems

surrounding our operations, contributing to biodiversity conservation.

III. Actionable Measures

1. **Robust Environmental Management System:** Based on international best practices (e.g., ISO 14001), we maintain a robust environmental management system to ensure effective implementation of our policies.
2. **Clean Production Technologies:** We embark on a comprehensive strategy to vigorously promote and implement cutting-edge clean production technologies. Streamline and refine production processes to minimize waste and emissions, while simultaneously enhancing product quality. Emphasize the reduction of packaging materials, prioritizing the use of reusable and eco-friendly alternatives to minimize environmental impact.
3. **Environmental Education & Awareness:** We provide ongoing environmental education and awareness programs for our employees and engage with the community to promote sustainable practices.
4. **Emergency Preparedness:** We have comprehensive emergency response plans in place, ensuring swift and effective action in case of environmental incidents.
5. **Performance Monitoring & Evaluation:** We regularly monitor and evaluate our environmental performance, using data-driven insights to inform continuous improvement efforts.

Conclusion:

Yingkou Zhongjie Shida Separator Co., Ltd. recognizes the urgency and importance of environmental protection for both humanity's future and our own long-term success. We are committed to implementing this policy with determination, exploring and adopting innovative solutions to environmental challenges, and working collaboratively with all stakeholders to create a more sustainable world.
